10 AUG 1967

MEMORANDUM FOR: Director of Special Activities

SUBJECT: Vulnerability Analysis of [REDACTED]

REFERENCE: OSA 2863-67, 3 August 1967

1. As noted in the referenced memorandum, the current Defensive Systems Division work-load on special projects precludes an immediate effort on [REDACTED] vulnerability analysis. We feel, however, it will not be necessary to await completion of all current projects prior to initiating a preliminary analysis for the [REDACTED]

2. Accordingly, we propose to perform this study as requested in reference, and anticipate completion by about 1 September 1967. It is assumed that scale model range measurements of [REDACTED] and essential flight parameters are available, and that a preliminary analysis of clean [REDACTED] vulnerability to the [REDACTED] will meet your needs at this time.

[REDACTED]  
DONALD F. CHAMBERLAIN  
Director of Scientific Intelligence
